

PARIMALA PRAHLADA RAO

Platform Engineer / DevSecOps • Gen AI & Data Science

parimalaprahlada@gmail.com | +91 98864 96472 | Bengaluru, India

PROFESSIONAL SUMMARY

Platform Engineer and DevSecOps specialist with 18+ years of experience designing CI/CD pipelines, leading cloud and tooling migrations, and running production-grade infrastructure at scale. Recently completed an intensive Gen AI & Data Science bootcamp (12+ applied projects, 8-week virtual internship) and a dedicated AI Agents bootcamp covering LangGraph, CrewAI, smolagents, LlamaIndex, and n8n, adding Python, Machine Learning, Deep Learning, NLP, Generative AI, and Agentic AI to a strong automation and systems foundation. Looking to apply this combined skill set in Platform Engineering, DevSecOps/SRE, MLOps, or AI-enablement roles.

CORE COMPETENCIES

Platform Engineering & DevSecOps - CI/CD design & automation — Jenkins, Harness - Version control admin — GitLab, Bitbucket, Stash - Cloud platforms — AWS, GCP - Containers/K8s — Helm, Kustomize, CKA-certified - Scripting — Bash, Python - SecOps & vulnerability management (NVD caching)	Gen AI & Data Science - Python, Machine Learning, Deep Learning - NLP, Generative AI, Agentic AI - Agent frameworks — LangGraph, CrewAI, smolagents, LlamaIndex, n8n - Stakeholder management & project management - Insights presentation for business audiences 12+ applied business projects across domains - Applying automation mindset to ML/AI workflows
---	--

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA)
- Gen AI & Data Science Bootcamp 3.0 (with Job Placement Support & Virtual Internship) — Codebasics
- Completed 12+ applied business projects across domains and an 8-week virtual internship (~200 practice hours); skills: Python, Machine Learning, Deep Learning, NLP, Generative AI, Agentic AI
- 10-Day AI Agents Bootcamp — Vizura AI Labs — hands-on with smolagents, LangGraph, CrewAI, n8n, and LlamaIndex

PROFESSIONAL EXPERIENCE

Platform Engineer | Transunion

Jun 2015 – Aug 2025

- Started as the sole DevOps engineer for the organization, independently owning the entire CI/CD, version control, and build infrastructure stack end-to-end before the function scaled into a team.
- Designed and maintained DevSecOps CI/CD pipelines for application teams using Jenkins and Harness.
- Led migration of GitLab and Jenkins from hosted to on-prem and on-prem to cloud, including Jenkins-to-Harness pipeline migrations.
- Automated GitLab-to-Bitbucket migration, Nexus cleanup, and customer onboarding workflows using Helm.
- Administered core engineering platforms: GitLab, Jenkins, Nexus, and Atlassian Stash.
- Implemented SecOps practices, including an internal NVD (vulnerability database) cache for faster, more secure scanning.
- Built UBI-based container images and customized build agents; led Kubernetes cluster upgrades (version and endpoint).
- Handled production alert triage and troubleshooting as sole point of contact in the early years, later transitioning support responsibilities as the team grew.

Freelance Git Consultant | Bengaluru

May 2012 – Jun 2015

- Delivered Git administration and customization services for multiple clients, integrating with Apache, Active Directory, and Jenkins.
- Set up repositories, access controls, and post-commit hooks; configured SMTP for Git-triggered notifications.
- Configured Gitolite for fine-grained repository access management.

Individual Contributor, SCM Team | EMC²*Oct 2010 – May 2012*

- Managed source control (CVS) across builds — tagging, branching, and merging repository files.
- Monitored nightly builds across 23 platforms and coordinated weekly code-drop releases.
- Automated routine build-area tagging and branch-creation tasks, improving release consistency.
- Diagnosed and resolved build failures, including AS/400 platform-specific issues.

Tech Lead – SCM | Mindtree Wireless*Apr 2010 – Oct 2010*

- Automated daily builds and resolved build-environment and distributed computing issues.
- Owned client specification creation and branching strategy reviews.

EARLIER EXPERIENCE (CONDENSED)

Expert – SCM | Hewlett-Packard India Software Operations Ltd.*Aug 2006 – Mar 2010* Owned end-to-end Software Configuration Management (CVS/Subversion migration), build & release management across HP-UX, AIX, Solaris, Linux, and Windows. Recognized with an E-award for independently setting up the R&D lab, and a Pat-on-the-Back award for migrating all build systems from Austin to Bangalore with zero dependency issues.

Senior Software Engineer – SCM | Philips Software Centre Pvt. Ltd.*Jul 2004 – Jul 2006* Managed configuration management for 14 concurrent projects using CM Synergy and Continuum, covering release baselining, distributed change management, and process documentation.

Senior Software Engineer – SCM | Ionic Microsystems / Global Edge Systems*Apr 2000 – Jul 2004* Built a complete software configuration management system from scratch for a startup home-gateway product, including build systems, version control, and bug tracking.

System Administrator | Aeronautical Development Establishment*Sep 1996 – Apr 2000* Administered HP UNIX workstations supporting engineering teams.

EDUCATION

- Master of Computer Applications (MCA) — Bharathidasan University, Trichy
- Bachelor of Science (PCM) — The National College, Basavangudi, Bangalore University
